

East Ridge Science Fair

Wednesday, May 10th, 2017

6:30pm to 8:00pm

Come and Join the Fun!

- Students of all ages can participate in this PTA sponsored event!
- FREE Mini Tri-Fold display boards will be provided by the PTA.
- **Registration forms are due back to your child's teacher on, or before, Friday, April 7th, 2017.**
- Visit the East Ridge PTA website for forms and instructions, or stop by the school office.
- For any additional questions, please contact Ms. Schmidt (kschmidt3@nsd.org).

WHAT INTERESTS YOU? WHAT IS THE SCIENCE BEHIND THAT? YOU COULD DO ALL SORTS OF THINGS FOR THE SCIENCE FAIR!

Display a **COLLECTION**: Shells, leaves, rocks and bird's eggs are all good examples of types of collections. Research and classify your collection and label all of the parts.

Build a **MODEL** or an **APPARATUS**: Make your own telescope to learn about magnification, OR build your own robot.

Do a **DEMONSTRATION**: Learn which materials are attracted to magnets and create a display to show your results, OR try and create your own tornado.

Do an **EXPERIMENT**: Study the effect of fertilizers on plants by using organic and synthetic fertilizers and no fertilizer at all.

Do a **RESEARCH** project: Research an interesting animal or a topic of scientific interest like black holes or the Northern Lights.
