

# Experiment Title

---

By \_\_\_\_\_

## Branch of Science

(Biology, Geology, Astronomy, Earth Science, etc.)

---

## Question

(What is the question I want to answer?)

---

---

---

## Hypothesis

(What do I think is going to happen? Use the form: *If I do this*, then *that* will happen.)

---

---

---

# Materials

(What items do I need to perform an experiment to test my hypothesis?)

---

---

---

# Procedure/Methods

(How do I test my hypothesis? What is my experiment? Remember, only one variable can change!)

---

---

---

---

---

---

# Data

(Data collected when I did my the experiment.)

---

---

---

---

---

---

# Conclusion

(What did I find out from my experiment? Was my hypothesis true or false?)

---

---

---

---

---

---
